UNIVERSAL RAIL : AUR-1

Universal Rails are made from 1.5mm (T) CRCA Steel duly powder coated in Light Grey RAL 7035 colour and can be mounted on any surface like walls, benches, slotted angle systems, stands and trolleys. These rails increase the flexibility of using different sizes of bins with ease and help in optimizing storage space.

The added feature of this rail is that when you use multiple rails one below each other from the second rail onwards the top part of the rail can be used as a support to the lower part of the bin mounted on the above rail and the bottom part of the rail can be used to mount the bin and so on, this helps in using lesser number of rails in the case when bins of height more than 130mm are used.
