CRASH CART COMPONENTS

Alkon has been a leading supplier of components to hospital furniture manufacturers used to manufacture emergency crash carts.

A crash cart is a set of trays / drawers / shelves on wheels used in hospitals for transportation and dispensing of emergency medication/equipment at site of medical/surgical emergency for life support protocols (ACLS/ALS) to potentially save someone's life.

The crash cart contains virtually all of the materials, drugs and devices necessary to be used in an emergency.

The configuration of crash carts may vary, but most will be a waist high or chest high wheeled cart with many drawers.

Alkon Modular Systems, Hippo Bins with channels, Roo Tilt Bins with crash cart rails are normally used by crash cart manufacturers all over India to create different designs of crash carts.
